## REPORT OF SUPERINTENDENT OF SCHOOLS

---

*To the Board of Education and Citizens of Milo:*

I herewith submit my sixth and last annual report on the Public Schools of Milo.

### PERSONNEL

New members on the staff this year are:

Mrs. Eva Roberts, Maine School of Commerce, M. H. S. Commercial.

Everett Backman, Tufts College, M. H. S., Social Science and Coach.

Virginia Clark, Boston University, Music.

Lawrence Bridgham, Gorham (four year course) Milo,

Grade 8.

Florence Cosman, Washington State Normal, Milo,

Grade 2.

Cedric Hewes, Farmington, Derby, Principal.

Martha Nutting, Wheaton College, Derby, Grade 6.

Catherine Luke, Farmington, Derby, Grades 4, 5.

Eleanor Morrison, Farmington, Derby, Grade 3.

There have been 777 pupils registered in Milo Schools during the current school year, distributed as follows:

Chase Hall	85
Primary	71
Grammar	160
Derby	213
High School	248
<hr/>	
Total	777

## BUILDINGS

Operating on a curtailed budget this year, only minor repairs were possible. We have installed new lighting in the rooms at Chase Hall, and in two rooms at Derby. New seats have been purchased for one room in the Grammar Building. Redecorating has been done in two rooms and the entrance hall at Derby. Other expenditures made include varnishing of desks, plumbing and electrical repairs and improvements, and incidental redecorating.

The year's work includes one item worthy of special mention. The school committee was able to save funds enough in its budget to purchase materials for a new floor in the room in Chase Hall used as a gymnasium by the grammar grades. Some thirty men gave their time to lay this floor. To those men, my sincere thanks for their community spirit and effort. With this help, we have improved this play area for the children, and overcome, to some degree, what was a hazzard to life and limb of all who played there.

## MILO HIGH SCHOOL

This school has had a fine year. Administrative and physical changes made here in recent years are now paying dividends.

We all regret the retirement of Mrs. Onata Deane after twenty-five years of service to the school. Of her, I would say, she has been a pillar of strength in the faculty ever since I have known the school. Hundreds owe her a debt of gratitude.

The present staff at the school is outstanding. Citizens of Milo, if you would but think over your High School faculty members, one by one, I believe you would join with me in this expression of appreciation for the untiring work of this exceptionally fine group of teachers.

## ELEMENTARY SCHOOLS

Population transfers during the past two years made necessary some changes in areas sending children to the various buildings. The changes made involved children west of the Sebec River. At present, our teacher load is as nearly equalized as it could possibly be arranged.

We were able, by a transfer of bus schedules and by a slight change in the time schedules in the Milo and Derby buildings, to greatly improve our transportation service. The waiting period, before and after school, of bus pupils has been materially reduced.

The staff in our elementary schools is very satisfactory. Many people have remarked on the fine work of these teachers. I hope the year may bring financial reward for their loyal service.

## LOOKING BACK

As I think back through the years that I have spent in this community, of my relations with its pupils, its people, and its teachers, the breaking of the many ties is most difficult. Milo has been good to me and to my family.

I hope that I have, in some measure, been worthy of your trust.

I believe, that I am justified in recalling with pride some of the major changes of recent years. The sub-primary, the testing program, and the permanent record system have been most valuable. Added materials of teaching in the elementary schools, in the hands of zealous, loyal teachers have stepped up our achievement, particularly in reading and allied subjects, at least a half year. In many instances, I believe this progress is a full year and more. The High School program is broader and stronger. Transportation facilities have been improved and its costs have been reduced \$500 per year including allowance for depreciation.

Physical conditions within the buildings are very much

better. New lighting has been installed in eight rooms. The High School laboratory has been built over, and its equipment much improved. Miss Treworgy's Biology room is an outstanding addition. We have refinished fifteen (15) rooms and several corridors and basements in the past five years. More than 500 desks have been refinished. Four buildings have had repainting. The lawn at the High School and the enlarged playground at Derby have been worth while.

### LOOKING AHEAD

The greatest need for the immediate future is an improved salary schedule. With the present conditions, Milo cannot hope to continue the services of many of its better teachers without a very substantial raise for them. Your staff of teachers is strong and experienced. Other communities will want them, and can make it worth their while to change. You have lost ground to these other communities in the matter of salaries for the past two years. You must recover that ground and more. Your competitors have already acted, in many instances, with salary increases. Your teachers make your schools. A real shortage is here. It will be more acute next fall.

The Grammar Building needs interior work badly. The Derby School needs some redecorating and some new lighting. The High School needs a new roof in the flat area in the center. Something should be done about the old fence at the High School lot.

In the near future, Milo should consider a cafeteria at Chase Hall, and a full luncheon there, and at Derby, for all bus pupils.

I should like to see a program of transfers worked out to eliminate the double grades at Derby. Many children are handicapped by our present organization. With our present second grades, both of which are small, a combination could be made which would eliminate one of these double grades.

To my many friends in this community which has been "home" for twelve years, my sincere appreciation and best wishes for the future.

Respectfully submitted,

H. A. LADD, *Supt.*

## REPORT OF PUBLIC HEALTH NURSE

---

This program extended to Milo by the Piscataquis County Nursing Service covers the period beginning January 1, 1941 and ending December 31, 1941.

The program according to type of service given can be classified under three headings: 1. School Nursing, 2. Tuberculosis Prevention, and 3. Special Health problems.

### SCHOOL NURSING

The greatest health problem in the schools was the prevalence of communicable diseases, during the winter and spring months. In an effort to keep the number of cases as low as possible the nurse made 43 repeated visits to schoolrooms, and individual reinspections of children numbered 2785. Conferences in connection with this problem with Superintendent of Schools, teachers, and others numbered 43 for May alone, and 99 for the school year.

Some children were excluded because of suspicious symptoms. In this group are health problems concerned with impetigo, scarlet fever, and measles. The usual annual health inspection of all pupils was made in September, October, and December. The results are as follows:

Number of inspections given to pupils	1133
Number of pupils with defective teeth	168
Number of pupils with defective throat	257

Number of pupils with nasal obstruction	19
Number of pupils with defective vision	54
Number of pupils with enlarged glands	69
Number of pupils with poor nutrition	50
Number of pupils with poor posture	23
Number of pupils with defective speech	17
Number of pupils with miscellaneous defects	40

The inspection included weighing and measuring and observation as to deviations from normal on points listed above. Visits to homes in behalf of school health problems number 76. A review of health records indicate that 12 pupils have had Tonsil and Adenoid operations at which the nurse assisted in making arrangements for two. The children were talked with by rooms to enlist their interest and co-operation in solving their individual health problems.

### TUBERCULOSIS PREVENTION

Our records show 13 patients under supervision. In this group are 12 listed as childhood types and one adult pulmonary. Visits to and in behalf of these patients the past year number 14. One patient is receiving Sanatorium treatment.

### CRIPPLED CHILDREN FOLLOW-UP

Patients have been seen to remind them of the need of revisits to the State Crippled Children's Clinic or Exercise Center at Dover-Foxcroft which is held every two months, and advisory visits have been made to homes.

### SPECIAL ACTIVITIES

Early Diagnosis Campaign posters, literature, films, and bottle caps were made available to the town in an effort to re-emphasize that Tuberculosis is Preventable.

The Nurse gave service to the town in eight months of the school year.

There were thirty-three children in the Milo schools who qualified for the Seven Point Pin and Certificate.

Respectfully submitted,

## REPORT OF TOWN MANAGER

---

*To the Board of Selectmen and Citizens of the Town of Milo:*

Herewith is submitted a brief report on town affairs for the past year:

### TOWN REPORT

Some of the information and material which it has been customary to include in the town report has been omitted this year in order to conserve paper. This change was adopted by the Selectmen in line with the policy of the Federal Government. Any information not contained in the town report is on file at the town office.

### FINANCES

The interest bearing debt of the Town was decreased during the year by the retirement of \$8,000.00 in serial bonds. An appropriation of \$5,000.00 made in the last annual town meeting was used for this purpose and \$3,000.00 was taken from surplus cash to buy bonds which ordinarily would not have been retired until January 1, 1943. Because the \$3,000.00 was taken care of during 1941, it will not be necessary to appropriate the full \$5,000.00 for debt retirement in the annual town meeting to be held March 9, 1942 and the voters will, no doubt, notice the Budget Committee's recommendation that only \$2,000.00 is provided for under the debt retirement article.

The total interest bearing debt of the town is now \$52,000.00, all being represented by serial bonds. These bonds come due serially and cannot be called. This is an unfortunate situation in view of the low money market but is a situation which it is impossible to change.

## CONCLUSION

Attempts have been made to try to estimate the effect, insofar as the Town of Milo is concerned, of the present unsettled conditions of the country in general. It seems to be impossible to forecast with any degree of accuracy what the present War may mean for our town. It is thought that because of increased Federal taxation, no new financial commitments should be undertaken in the immediate future. It is also thought that many of the changes which will come about as time goes on will be far reaching and will present problems which will have to be solved as they occur. For this reason forecasts of our tax picture which ordinarily have been estimated for two or three years in advance have now been dropped and the tax rate will be thought of in terms of the present only. This policy was explained in detail to the Budget Committee and met with the Committee's approval.

In conclusion, I wish to take this opportunity to thank the Board of Selectmen, employees of the town, and citizens of the town for their assistance and cooperation during the past year.

Respectfully submitted,

D. H. STEVENS, *Town Manager.*

## REPORT OF BUDGET COMMITTEE

---

The Budget Committee met with the Superintendent of Schools and School Committee and with the Town Manager and Board of Selectmen and carefully considered the recommendations submitted by those individuals. The Committee was faced with the problem which seems to re-occur each year in the matter of an expected decrease in valuation, this year the decrease being caused by the many buildings which are being demolished and not being replaced.

Taking into consideration the expected decrease in valuation, the committee formed the opinion that a tax rate of not exceeding 53 mills, which would be a reduction of six-tenths of a mill from the 1941 rate, should be adhered to, if possible. The recommendations of the Committee listed under each article in the Warrant will allow for a tax rate of 53 mills and also provide the necessary margin for the assessors to take care of the decrease in valuation.

# REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

*To the Board of Education and Citizens of Milo:*

I herewith submit the annual report of the Superintendent of Schools.

During the past year the town of Milo has supported five schools with enrollments as follows:

Chase Hall	85
Primary Building	58
Grammar Building	146
Derby	184
High School	225
<hr/>	
Total	698

This is a decrease of a little over 10% from last year. The explanation of this falling off in pupil enrollment is probably the fact that quite a few families have moved out of Milo during the past year for work in defense plants. The attendance of the pupils, on the whole, has been a little better than last year. For one thing, we have not had the epidemics and colds quite as much up to the present time.

Pupil progress has been satisfactory in most cases. The teaching has been of a high standard and the changes in the staff up to the present time, have been few in comparison with some other towns.

## PERSONNEL

There are several teachers who are new to Milo Schools this year. They are as follows:

Dorothy P. Clark, Dover-Foxcroft, Farmington State Normal School, Milo, Grade 7.

Ethel Sprague, Danforth, Aroostook State Normal School, Derby, Grades 4, 5.

Evelyn Philbrook, Milo, Farmington State Normal School, Derby, Grades 6, 7.

Constance Cushing, Freeport, Farmington State Normal School, Derby, Grade 2.

Margaret Johnson, Orono, Gorham Normal School, Milo, Grade 2.

Millard C. Gordon, Skowhegan, Bowdoin College, Milo High School, Soc. Sciences.

Clara Prescott, Brewer, Lowell Teachers College, Music.

Hazel Howard, Milo, Maine School of Commerce, Milo High School, Commercial Department.

There are several changes which have come directly as a result of the war. John F. Roberts who was here for nearly a year, left during the Christmas vacation to join the Armed Forces. A little earlier than this, Lawrence Bridgham and Earl Lush went into the Army. As this report goes to press Roy H. Monroe is leaving for Military Service.

While this list does not include all that have gone into the service, it does explain why some names do not appear on the changes in personnel. In the grades, Wilda D. Fisher is now teaching the sub-primary. Leta Shattuck has been promoted to the fourth grade and Jane Prescott is teaching the eighth grade.

## BUILDING AND REPAIRS

During the past summer, one of the largest repair projects for many years was carried out in the schools of Milo. At a special town meeting money was appropriated to repair the toilets of the Milo School Buildings. Unless a person had been into these basements and saw for himself the condition of the toilets, he could hardly realize the situation which existed. In the first place the facilities were inadequate. Consequently additional units were added to

both girls and boys toilets in practically every building. Improvements were also made in the ventilation.

A new concrete floor was put into the basement of each school building with the exception of the girls' side of the Primary Building. In the Derby school practically the whole basement floor had to be put in new. In this particular building the old floor was not built for proper drainage. In every building it was not possible to get at the plumbing without taking up the old floors with the exception of the girls' side in the primary building.

The plumbing arrangements failed to meet the plumbing code as it is today. Consequently much of the work had to be put in new. Every voter should visit the public buildings, including the schools, to see what the conditions are. Those who have seen the improvements in the toilets have been very pleased with the changes which have been made.

Besides the work just mentioned, some painting was done during the summer and several smaller items of general repairs. The usual work of varnishing desks and whitening walls was done in several buildings.

The following list of repairs is suggested for the coming year.

#### Milo High School:

1. Building needs repainting.
2. The roof on the new part of the high school is not in a good condition.
3. Several rooms need some plastering.
4. New curtains.
5. New basement floors should be painted.
6. There are several smaller items as usual, such as glass, varnish, window cord, putty, etc.

#### Grammar School:

1. The metal ceilings and walls need painting.
2. Toilet floors need painting.

### Primary Building:

1. Toilet floors need painting.
2. Rooms too dark; need better lighting.
3. Porch roof leaks.

### Chase Hall:

1. Toilet floors need painting.
2. Walls in toilets need painting.
3. Outside needs painting.
4. Furnace needs general overhauling.

### Derby Building:

1. Basement floors need painting.
2. Basement ceilings need to be completed.
3. Several rooms need more adequate lighting facilities.
4. Back steps need repairing.
5. New treads needed on stairway.
6. Grading should be done in bus driveway.
7. Frosted glass necessary on toilet windows.
8. New door for third grade room.

## TEXTBOOKS AND SUPPLIES

Milo has some good textbooks. It needs more good books. There is not only a shortage of modern textbooks in certain classes, but there is also a lack of reference books, dictionaries, and maps. The most of the money this year has gone for building up the textbooks which were satisfactory.

The cost for textbooks and supplies have run unusually large due to the fact that the school board thought it good business to add several machines to the Commercial Department while these were available. New typewriters and adding machines were purchased for the Commercial Department and the Superintendent's office, only two days before the "freezing" went into effect. Inasmuch as this equipment was badly needed, the town is fortunate in get-

ting these when they did. These things together have made up the difference between the expenditures of last year and this year in this particular account. I am recommending that a new system of English books for the grades be introduced as early as feasible and the history series should be completed.

## FINANCIAL

Due largely to war conditions expenses in almost every line have increased during the past year or so. It has been a time of perplexity for administrators in trying to stay within the budget limits. Wages have been increased in practically every kind of work. Needless to say the increase in teachers' salaries have not been proportionate to the increase in defense industries, for example. The result has been that literally hundreds of teachers have left the teaching profession during the past year. One can see why this has taken place. Many teachers earn scarcely enough to pay their bare expenses. With the inauguration of the Victory Tax and lowered exemptions in the Income Taxes, teachers are probably worse off financially this spring than they were a year ago.

If schools are to continue it will be necessary to pay larger salaries. After all, is there any reason why a teacher should not be paid a salary commensurate with the profession which he has chosen? Our educational system is indispensable to our democracy.

The same may be said of janitors, conveyance drivers and the school personnel in general. People in educational work are a very loyal group. There is however, a need of giving more diligent study to the financial needs of these workers, with the thought of making more adequate financial support to their salary schedules.

It is usually considered better business to expand and advance at a time when money is comparatively free. There is certainly plenty of work today and everyone has money

more or less. Consequently, I recommend that all necessary repairs be made the coming year and that a budget for school purposes be raised which will carry the school through a successful year in 1943 and 1944.

It is apparent that the money raised for school purposes has not been quite enough for the needs in recent years. As evidence of this I would point to the cost of the past year and the general needs in repairs, textbooks, etc.

Space forbids that a detailed account of increases in school maintenance be included in this report, but one item will illustrate the point.

On March 30, 1942, arrangements were made with the town manager for buying the coal for the town of Milo for 1942-43. One hundred and fifty-five tons were ordered for the Milo Schools.

Budget estimates based on the previous year's figures listed coal at \$9.07 per ton. It actually cost the school department this year \$10.52 per ton delivered to the schools; an increase of \$1.45 per ton over last year. This one item cost the school department \$224.75 more than the budget estimate. Further details in regard to similar expenditures will be explained to the budget committee.

Salary increases were made to the janitors and vocational teachers although there were no appropriations for this purpose. However, these increases were justified on the basis of salary raises to other teachers.

### IMPROVEMENTS

Any school system should constantly improve. Several important changes have been made in the past year. In the first place, the rotating schedule of the Grammar School and High School were separated early in the present school year. The advantages of this change from the standpoint of administration are obvious. This has allowed Jessie Micue to put in full time in the grammar school. The administration of the grammar school building has been far more satisfactory.

Several changes have been made in the bus schedule. The first changes were made on my recommendations. The recent changes have been due to Federal Regulations. On the whole the boys and girls have very satisfactory conveyance arrangements. The drivers are careful and competent and the buses are in fair condition.

Some standardized tests have been given. The results have been used in a professional way for the better teaching and graduation of the pupils.

Each school has been supplied with an up to date and outstanding "Course of Study". This is of inestimatable value from an educational standpoint.

The increase in teachers' salaries, made possible by a vote of the town at a special town meeting, must be considered a real advancement. Some of our teachers would have left for positions in other towns paying higher salaries if the School Board had found it impossible to make these increases on contracts for 1942-43. We are facing a similar situation this spring, only in a more acute degree.

Early in January of 1943, the second grade was moved from Chase Hall to the Primary Building. Muriel Purington's grade was moved into the second grade and the first grade room was closed. This has made a saving in fuel and at the same time, the other two rooms have been more comfortable. It has taken no more fuel to heat the Primary Building than it did before as the vacant room was heated anyway. The only thing necessary for efficient heating here was to put in several new radiator valves.

New report cards were introduced at the beginning of the school year. This change came because of the general request by teachers and parents for simpler cards. The new card has been very favorably received.

The new Cumulative Record Card which has been developed by the State Department of Education was also adopted early this school year. This card meets the recommendations of current educational practice for permanent records of pupils in both elementary and secondary schools.

## SCHOOLS IN THE WAR

Milo schools have tried to keep progressing with the situations which have arisen because of the war. In the high school a course in pre-flight aviation was introduced at the beginning of the school year. This course was taught by Roy Monroe and up to the present time we have not been able to find anyone to continue his work.

At a recent meeting of the school board, it was voted to purchase mats for the boys who wish to have some training in tumbling, wrestling, and gymnastics, in a pre-induction building-up program. Although the mats have not arrived at the time of making this report, because of the labor shortage, they should be here soon and will be a valuable contribution to the physical education program.

A very important project which has been recommended highly by the government as a part of its program, in time of war especially, is the school hot lunch program. This is not, strictly speaking, a school project. It is however, a valuable part of the life of the school pupil. It is sponsored by the Milo Lions Club and it has received marvelous support from all the clubs and societies in the town. The school board has appreciated the work being done for these boys and girls. I have been very pleased as a representative of the school department to have had a small part in the development of this project. A full lunch is now being served to approximately 150 young people. This would not have been possible without the use of the Town Hall for which I express the appreciation of many people.

The war has made some changes in our student body at the high school. Many of the older boys have gone into the service and the opportunities for work have lured away many of the boys and girls. It is the same the country over. The government considers it the patriotic duty of a pupil or a teacher to stay in schools until such time as the government calls him. If things continue for the next few months according to present trends it will possibly be

necessary for further adjustments. We should do everything possible to carry on a strong program and hold up a high standard. Young people in these times need our support in every way. School is one of the ways we can give them great assistance.

In looking over the past year, I can see that we have made progress in spite of the conditions about us. The school program has been modified at times by rationing programs and many of the teachers devote much time to the various defense projects. Still they have maintained a high standard of instruction. Milo is fortunate to have as few changes in the teaching staff as it has had up to the present time. Milo is also fortunate in having teachers of such ability and scholarship. It has been a privilege and pleasure to work with them. In fact the whole year has been very pleasant to me in working with the schools and the citizens of this town.

I wish to express my appreciation at this time for the splendid cooperation and support which I have received from the School Board, town officials, teachers, and citizens of Milo.

Respectfully submitted,

HUBERT E. REDDING,  
*Superintendent of Schools.*

## REPORT OF PUBLIC HEALTH NURSE

---

I hereby submit the annual report of health service rendered Milo for the period beginning January 1, 1942 and ending December 31, 1942.

The major part of the program is concerned with the health of the child of school age and Tuberculosis prevention.

### SCHOOL NURSING

Annual inspection of the school children was completed in grades sub-primary to the sixth grade. The fifth and eighth grades will be completed before this report reaches you.

We have hoped to have physical examination in the high school, enabling us to place more emphasis on the health of the high school student.

Number of pupils inspected	1126
Number of pupils with defective teeth	159
Number of pupils with unclean teeth	75
Number of pupils with throat defects	133
Number of pupils with vision defects	30
Tested by audiometer—hearing defect	38
Unhealthy skin condition (exclusion recommended)	23
Vision corrections, refractions	4
Teeth conditions corrected	18
Throat operations	9

### TUBERCULOSIS PREVENTION

Every effort is made to assist patients to have repeated and necessary check-ups and to have contact cases of tuberculosis examined, also to carry out instructions of examining physician.

At the X-ray clinic held at Milo in September, seven were X-rayed and four taken to Fairfield.

## IMMUNIZATION

One hundred were vaccinated against smallpox, and 342 inoculated against typhoid.

Doctors assisting at the clinic were Dr. Carde, Dr. Bundy, and Dr. Curtis. Milo Nurses' Guild also helped with these clinics.

The audiometer test was given in January. In September the test was repeated for Grade 4, Freshmen and all new students. Home Nursing classes were taught at the First Aid room of American Thread Company to a group of high school girls. These classes were in two hour periods, per week.

## CRIPPLED CHILDREN

Three home visits to crippled children have been made. Arrangements have been made for one child to attend the clinic at Waterville and for one at Bangor.

## UNCLASSIFIED

Follow-up visits to homes	38
Home visits	38
School children taken for refraction of vision	3

There were 8 children who qualified for the Seven Point pin and certificate. Appreciation is extended to the Superintendent of Schools, teachers, and all citizens for their cooperation.

Respectfully submitted,

PISCATAQUIS COUNTY NURSING SERVICE

By NELLIE GIBBONS,

*Public Health Nurse.*

## REPORT OF MILO FIRE DEPARTMENT

*To the Board of Selectmen and Citizens of the Town of Milo:*

Herewith is submitted my report for the Fire Department for the fiscal year ending February 1, 1943:

Box calls	6
Calls outside hydrant service	7
Chimney fires	52
Grass fires	3
Woods fires	1
Chief calls	1
Practice calls	2

The overdraft in Fire Dept. supplies is caused by the purchase of additional hose.

There were fourteen men trained during the year to be members of the Department as Auxiliary Firemen for the duration of the war.

The Department wishes to express its appreciation of the fine cooperation of the community in our work, and to all of those who made possible the purchase of a service flag for all of those in the armed service of our town and country.

Respectfully submitted,

ELMER F. JENKINS, *Fire Chief.*

## REPORT OF POLICE DEPARTMENT

Respectfully submitted,

AARON W. DAY, *Police Officer.*

## REPORT OF TOWN MANAGER

---

*To the Board of Selectmen and Citizens of the Town of Milo:*

Herewith submitted is a report on the activities of the Departments for the past year:

The Summary of Accounts shows the financial standing of the several departments and a complete detail is on file at the Town Office, to which reference may be had for the separate items of credit and disbursement.

On April 22, 1942 there was a Special Town Meeting held to consider the feasibility and cost of repairs to school buildings and increasing the pay of teachers. As a result of this meeting obligations amounting to \$6,458.00 were incurred. On December 16, 1942 another Special Town Meeting was held to consider methods of financing these obligations and it was voted to include \$2,000 in the taxes to be raised in 1943 and \$1,486.00 in the taxes to be raised in the years 1944, 1945, and 1946. This will necessarily result in some increase in your taxes for these years.

There are two very important conditions that warrant special consideration. First, indications now point to the fact that there will be a material reduction in the taxable valuation for the year 1943, particularly in the personal property valuation and in the number and value of motor vehicles subject to an excise tax. Second, this loss of valuation and tax considered with a budget total or tax commitment sufficient to take care of the mandatory expenses and those necessary to maintain public services at an acceptable standard will, in effect, increase the individual tax on the remaining property.

The assistance and cooperation of the citizens, officials and employees of the Town is reflected in the fine understanding and results accomplished.

Respectfully submitted,

BION F. JOSE, *Town Manager.*

## REPORT OF BUDGET COMMITTEE

---

The Budget Committee met with the Superintendent of Schools and School Committee and with the Town Manager and Board of Selectmen and carefully considered the recommendations submitted by those individuals. The Committee was faced with the problem which seems to re-occur each year in the matter of an expected decrease in valuation, this year the decrease being caused by the many buildings which are being demolished and not being replaced, and also a very material decrease in the value of the Stock in Trade, as well as a loss of several thousand dollars in valuation of the Milo Water Company.

Taking into consideration the expected decrease in valuation, and the recommended increase in some of the appropriations, it is apparent to the Committee that a general increase in taxation is inevitable.

A careful analysis of public school finances for the year to February 1, 1943, indicates that alterations and improvements in schoolhouse plumbing were done on a "time and material" basis, without any check by school authorities of rates charged. The Budget Committee believes the rates charged were exorbitant, that the overcharges would aggregate several hundred dollars, and that a refund should be demanded.

Our School District comprises the towns of Milo, Brownville, Barnard, Lake View and Williamsburg. The headquarters office of the District Superintendent is maintained at Milo. The records show that the town of Milo bears almost the entire financial burden of rent, light, heat, janitor service, equipment, supplies, telephone and telegraph charges, clerk hire, etc. Some of the towns other than Milo pay direct to the office clerk some part of her salary. The Budget Committee believes this whole set-up is inequitable

and unbusinesslike; that all expenses should be handled through the headquarters office and prorated to the several towns on the basis of the number of pupils enrolled, except where an item can be specifically and accurately allocated to a particular town.

It is the intent of the Budget Committee to recommend an additional salary increase for each teacher, effective at the beginning of the school year in September, 1943. A bill now pending in the State Legislature, if enacted, is expected to provide a salary increase for each teacher. If such increase is not provided by the Legislature, a special Town Meeting will be asked for to secure funds for the purpose.
